

# OPPORTUNITY *Ohio*

## Fiscal-Teacher Data Charts

### Northwest Local Schools

- From 2001 to 2011, school funding from property taxes has gone up by **10.8%** and school funding from all tax sources has increased by **17.6%**.
- As household income grew by **19.2%** and inflation increased by **24.2%** since 2001, teacher pay jumped by **32.9%** and total spending rose by **24.2%**, with current and future compensation costs swallowing **80% to 81%** of all spending.
- For fewer than 185 days of work, teachers on average already make **\$57,128**. If they worked a full 260-day work year like most Ohioans, their current hourly rate would equate to a median salary of **\$84,649**.
- Spending goes up every year but two years from 2009 to 2016, averaging **3.1%** per year from 2013 to 2016.

Assessed Home Value	\$100,000	\$200,000	\$300,000	\$400,000	\$500,000	\$600,000	\$700,000	\$800,000	\$900,000	\$1,000,000
<b>Tax Hike</b>	\$152	\$303	\$455	\$606	\$758	\$910	\$1,061	\$1,213	\$1,364	\$1,516

Percent Change	Fiscal Data 2001 to 2011	Teacher Data 2001 to 2011	Percent Change
↑17.6%	<b>School Funding from All Taxes</b>	<b>Number of Students</b>	↓-9.0%
↑10.8%	<b>School Funding from Property Taxes</b>	<b>Number of Full-Time Teachers</b>	↓-12.1%
↑24.2%	<b>Total Spending</b>	<b>Average Teacher Salary</b>	↑32.9% (\$42,982 to \$57,128)
↑35.7%	<b>Per Pupil Spending</b>	<b>Days Worked (Out of 185)</b>	↓-1.6% (178.25 to 175.47)
↑19.2% (\$45,306 to \$54,005)	<b>Median Household Income</b>	<b>Annualized Median Teacher Salary (hourly rate for 260 day work year)</b>	\$84,649

All data comes from the Ohio Department of Taxation, the Ohio Department of Education, the U.S. Census Bureau, and Northwest Local Schools. For detailed charts, please visit [www.opportunityohio.org/book-2](http://www.opportunityohio.org/book-2). To determine your tax hike amount, divide your home's assessed value by \$100,000 and then multiple that answer by \$152. To determine your tax hike percentage increase, locate the amount of your property taxes that go to the school district on your property tax bill. Divide your total tax hike amount by the amount currently paid to the school district.
