

# Right-to-Work States Dominate Economic Recovery

Right-to-Work states have increased their employment totals far better than Forced-Unionization states, holding nine of the top 12 spots in employment growth since 1990. By contrast, Forced-Unionization states hold all but one of the 12 worst-performing positions, the only exception being Michigan which became a Right-to-Work state in 2012.

1990 to 2010  
1990 to Dec. 2015

Percentage Change in Employment

- Right-to-Work states
- Forced-Unionization states

Top 10 rank in oil or gas production in 2013

**Note:** Wisconsin became Right-to-Work in March 2015.
