Don't Know or Refused	0%

Survey Methodology

This survey was conducted dialing both automated landline and live cell phone sample. The sample used for this survey was randomly drawn from a state of Colorado voter file. This survey was weighted based upon past general election voting demographics for the non-primary, "middle" voting population. The interviews were conducted January 25th - 26th, 2016. Three attempts were made to interview each household in the sample. This survey has a margin of error of +/- 3.63% at the 95 percent confidence interval.
