

# Ohio's Recovery Hindered by Mass Layoffs

While job opportunities in Ohio have increased, there are signs the state may not be making the most of the strong national economy. Jobs lost in the state from mass layoffs have spiked in 2018. Through September, there have been **11,060 such layoffs**, the highest year-to-date total since the Great Recession. If recent trends continue, Ohio may see **2,400 additional layoffs** in 2018.
