

Ohio's Recovery Hindered by Mass Layoffs

While job opportunities in Ohio have increased, there are signs the state may not be making the most of the strong national economy. Since the Great Recession, Ohio has lost about 11,000 jobs each year through mass layoffs, and 2019 is on track to reach nearly 10,000 jobs lost. Through November, there have been **9,300 such layoffs**. If recent trends continue, Ohio may see **600 additional layoffs** this year.
